Battery powered, cold **spray mist** generator

i-cover

The i-cover 1.0 is an advanced cold mist generator designed to make your disinfecting job fast, efficient, and thorough. In the world after COVID-19 it is critical that we update our cleaning methods to include a disinfecting sprayer. With the i-cover 1.0 unique color coded nozzle system, you always know which nozzle to use for which surface.

Features

i-power 14 Li-Ion battery powered, cold sprayer

Lightweight spray nozzle

Faster cleaning time, better coverage

4 colour coded nozzles for multiple applications

Shoulder, back, hand or trolley carried

Fine tuned nozzles

Multiple nozzles provide fine tuned coverage.

For objects that are fragile (papers, displays, keyboards etc.) use the **purple finest** nozzle.

For indoor applications, use the **green fine mist** nozzle.

For food preparation, use the **orange medium mist** nozzle.

For outdoors and walls, use the **blue coarse mist** nozzle.

Wide spray

Better coverage because of specific nozzles, a wide spray fan generates faster cleaning.

Less liquid usage

Spray more effectively with less liquid. This makes every drop count.

Safe

No heat needed, range of ecofriendly and safe liquids.

Easy to use

Four different ways to configure it by hand, shoulder, back and with a trolley. This guarantees better control and excellent ergonomics for the user.

Empty tank

It takes 10 minutes for the tank to be empty. That equals 150m² that is fully covered. In comparison, the competitor takes 9 minutes which equals only 100m² that is covered.

Technical specifications

	i-team	competitor
Handle weight	1 kg	2.5 kg
Total product weight	7.5 kg	2.5 kg (ca)
Working reach (to empty tank)	150 m ²	100 m ²
Running time battery	18 hours	4 hrs.
Dimensions (l x w x h)	30x23x27 cm	42x11x24 cm
Extras	2 tanks available, for changing during operation
